Co-op and Summer Intern Program - Daily Report - 28 Sept 73

The Coordinator for Cooperative Programs made his first visit to Bowie State College today. The briefing of the Campus Coordinator was well received. Because the school is in the process of relocating two new buildings, it was impossible for the Campus Coordinator to locate any students for interviews. She will do so in the next month when the CIA Coordinator will interview co-ops for the Office of Finance on 24 October. This will be satisfactory since the students will not be available for work until February.
